

PRESCRIPTION SUNGLASSES

Are you employed by the AAD and travelling to Antarctica, the sub-Antarctic or participating in Marine Science voyages for 14 days or more and need prescription sunglasses?

If so, you are entitled to one pair of prescription sunglasses in lieu of a standard sunglass issue.

Leaving in less than 6 weeks, the glass sizes we have do not fit you, or you prefer a different frame?

Please refer to the AAD Safety Guideline Prescription Eyewear and arrange your own glasses and seek appropriate approvals and reimbursement for costs*. Please contact the clothing store for reimbursement information ie cost centre and approver details

If you require other prescription eye wear ie safety goggles, snow goggles – please refer to the above Eyewear Procedure. The Clothing Store only arranges prescription sunglasses orders.

Leaving in 6 weeks or more? The AAD Clothing Store can arrange your prescription sunglasses by completing and returning this form. (This is our preferred option)

If you are not covered under this process (ie employed by BOM, Parks or another external agency), please seek support from your employer or sponsor for prescription eyewear.
