PROPOSED PROCLAMATION TO AMEND THE HEARD ISLAND AND MCDONALD ISLANDS MARINE RESERVE PROCLAMATION 2002 (AS AMENDED) (notice under section 351(2))

A Proclamation is proposed to be made (**the proposed Proclamation**) to amend the Environment Protection and Biodiversity Conservation (Heard Island and McDonald Islands Marine Reserve) Proclamation 2002 (**the Heard Island and McDonald Islands Marine Reserve Proclamation 2002**) (as amended in 2014) under section 350(1) of the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (**EPBC Act**). The proposal will extend the boundaries of the existing Marine Reserve to include the area of sea described in this notice.

Members of the public are invited to provide comments on the proposal outlined above. Comments will be included and considered in a report to be prepared by the Head of the Australian Antarctic Division (as delegate for the Director of National Parks) for the Minister for the Environment and Water in accordance with sections 351(1) and (2) of the EPBC Act.

A statement providing particulars of the proposed Proclamation is detailed below, in accordance with section 351(3) of the EPBC Act.

PROPOSAL TO PREPARE A DRAFT MANAGEMENT PLAN FOR THE HEARD ISLAND AND McDONALD ISLANDS MARINE RESERVE (notice under section 368(2))

The current management plan for the Reserve, the Heard Islands and McDonald Islands Marine Reserve Management Plan 2014-2024, will cease to have effect on 14 October 2024. The Head of the Australian Antarctic Division (as delegate for the Director of National Parks) proposes to prepare a draft of the next management plan for the Reserve and invites members of the public to comment on the future management of the Reserve. In accordance with section 357(1)(a) while a management plan is not in operation for the Reserve, the Head of Division will manage the reserve in accordance with the Australian IUCN principles for the IUCN category to which the Reserve or zone has most recently been assigned by a proclamation or a management plan that was in operation for the reserve (but is no longer).

A draft management plan for the Reserve will be prepared taking into account any comments sent in response to this invitation. The draft plan will be released for public consideration and comment for a period of not less than 30 days.

PROPOSED PROCLAMATION – STATEMENT OF PARTICULARS

1. Amendment of the Heard Island and McDonald Islands Marine Reserve Proclamation 2002 (as amended 28 March 2014).
 - a) Extending the boundaries of the Heard Island and McDonald Islands Marine Reserve.
 - b) Altering the zoning of the Heard Island and McDonald Islands Marine Reserve.
 - i. The Commonwealth reserve is proposed to continue to be known as the “Heard Island and McDonald Islands Marine Reserve”.
 - ii. The proposed boundaries of the Commonwealth reserve are described in Schedule 1 to this notice.
 - iii. The Commonwealth reserve is to be declared for the purpose of:
 - i. The protection and conservation of biodiversity and other natural, cultural and heritage values.
 - ii. Ecologically sustainable use that supports positive social and economic outcomes.
 - iv. The Commonwealth reserve is to be assigned to the International Union for Conservation of Nature (IUCN) category IV – Habitat/species management area.
 - v. The Commonwealth reserve is proposed to be divided into eight zones. The boundaries of these zones and the IUCN category to be assigned to each zone are described at Schedule 1 to this notice.
 - vi. The purpose for which it is intended to manage and use the Commonwealth reserve is:
 - i. The protection and conservation of biodiversity and other natural, cultural and heritage values.
 - ii. Ecologically sustainable use that supports positive social and economic outcomes.
 - vii. The Commonwealth reserve includes:
 - i. The waters and seabed under any sea within the declared area.
 - ii. The land and seabed that is under the sea to a depth of 1000 metres within the declared area.

Eight zones are proposed for the Heard Island and McDonald Islands Marine Reserve, divided into three zone types. Consistent with both the IUCN categories proposed to be assigned for these zones and the relevant Australian IUCN reserve management principles prescribed by Schedule 8 of the *Environment Protection and Biodiversity Conservation Regulations 2000*, these three zone types are:

Sanctuary zone (IUCN category Ia — Strict nature reserve): To be managed to conserve ecosystems, habitats and native species in as natural and undisturbed a state as possible. The zone allows only authorised scientific research and monitoring.

National park zone (IUCN category II — National park): To be managed to protect and conserve ecosystems, habitats and native species in as natural a state as possible. The zone only allows non-extractive activities unless authorised for research and monitoring.

Habitat Protection Zone (IUCN category IV – Habitat/species management area): To be managed to support the pelagic habitats in the waters surrounding Heard Island and McDonald Islands. The zone aims to ensure the maintenance of ecosystems, habitats and native species through sustainable resource management.
